Bursa Malaysia’s dividend payout ratio of 92% in 2018 is the highest among listed peers regionally.
Bursa’s share price has shown a steady trend throughout the years.
Bursa’s earnings per share and the price earnings ratio have also been relatively steady.

* Payout Ratio (Exclude special dividend)

Note: Comparative figures have been adjusted to reflect the bonus issue exercise completed on 13 April 2018

Conclusion

Moving Forward
Moving Forward

Strengthen the Core

Enhance the depth and breadth of the ecosystem.
Implementation of the T+2 settlement.
Implementation of a modernised post-trade infrastructure.

Regional and Global Connectivity

Position Malaysia as gateway to ASEAN.
Build regional alliances and links with Global Exchanges for cross-border activities.

Capitalise on Technology and Information

Modernise core systems that form the backbone of Bursa’s business.
Structure Bursa Malaysia towards becoming a data-driven organisation that leverages on the abundance of data.

Fostering a High-Performance Organisation

Focus on building a data-driven culture, encourage a growth mindset and inculcate a sense of accountability to enable the workforce to meet current and future challenges.

Sustainability as a Way of Life

Lead by example in practising the highest levels of corporate governance and sustainability. Incorporate best international practice in reporting standards, in assessing the material impact of activities, and in encouraging sustainability-focused thinking within the organisation.
42nd Annual General Meeting

Independent Auditors’ Report to the Members of Bursa Malaysia Berhad

by

Dato’ Megat Iskandar Shah bin Mohamad Nor
Partner

Messrs. Ernst & Young
Question:

In 2018, under its surveillance activities, 4 listed companies had appointed special auditors/legal advisers to look into the issues highlighted by Bursa (pages 14-15 Governance & Financial Reports 2018 (“GFR”)).

What are these issues, the latest status of these cases and related action taken to uphold investor protection and market integrity?

Answer:

The issues related to certain corporate exercises and director(s) conduct for which the directors of these companies had appointed independent third party (i.e. special auditors/legal advisers) to look into the issues/concerns as raised by Bursa. To-date, of the 4 appointments, 3 had completed their undertakings, and the respective companies had communicated that the concerns raised had been addressed including enhancing weak governance processes noted from the undertaking. As for the fourth appointment, this involved a special audit exercise which is still on-going.

Depending on the type of findings, Bursa may take the necessary actions to uphold investor protection and market integrity.
Question:
We refer to page 30 of the Integrated Annual Report on the performance of the Leap Market since its launching in 2017 with a total of 13 companies listed on the platform as at end 2018.

Since SME growth remains a key national agenda, what measures are you taking to further spur the interest of potential SMEs issues in 2019?

Answer:
In 2019, Bursa will continue its collaboration with Ministry of Entrepreneur Development to promote listings on Bursa Malaysia, targeted at SMEs to fund their business growth. Bursa is currently working on several initiatives to further strengthen the framework. Subject to approval from the Securities Commission, the initiatives include:

• Development of framework for transfer of listing from the LEAP Market to ACE and the Main Markets;
• Further expansion of advisers pool; and
• Facilitation towards easier access by sophisticated investors as well as expansion of investors pool.

In this respect, we will continuously engage the industry for their feedbacks to remove any impediments in growing and strengthening the LEAP market.
Question:
On page 15 of the GFR, Bursa undertook a review of the sustainability disclosures of RM1B & more listed companies on a sampling basis in 2018. What are the key findings arising from the review?

In the same year, Bursa had also reviewed listed companies with market capitalization below RM1 billion and those in the ACE market. What is the outcome from Bursa’s engagement with this group this year and business strategy going forward?

Answer:
Bursa had conducted the review of the sustainability disclosures by relevant:
- large companies with market capitalisation of RM2 billion and above (RM2B PLCs); and
- smaller companies with market capitalisation of RM1 billion to below RM2 billion (RM1B PLCs).

Based on the review, it was generally found that these companies had:
- An overall average compliance level of approximately 90% in the areas assessed.
- However, in terms of quality of disclosures the same listed companies had an average score of about 50%.

Continued...
Answer (cont’d):

The listed companies with market capitalization of below RM1 billion and constituents of the ACE Market are required to issue their sustainability statements for financial year ending 2018 in 2019. In 2018, Bursa had placed its focus in preparing these companies via engagements and advocacy. The sustainability disclosure review exercise for these companies is expected to be initiated only in 2019 after issuance of their sustainability statement.

To date, we have achieved material progress in this area vis a vis our listed companies as evidenced from, amongst others, the increase in number of PLCs in our FTSE4Good Bursa Malaysia Index which has grown to 56 from 24 in 2014. Notwithstanding, we aim to further elevate the sustainability/ESG practices as well as disclosures of our listed companies and will continue exploring and implement various strategies and initiatives including through our BURSASUSTAIN as well as engagements, collaborations and education on our own or with external parties/key influencers.
Question:

On your Sustainability Report 2018, page 2, we note that the Report has not been externally assured. **Do you intend to have your Report externally assured and if so, by when?**

Answer:

We have adopted a phased implementation of integrated reporting (<IR>). This year we have produced our first Integrated Annual Report. Our Sustainability Report 2018 (SR2018) is only the 2nd report that we have prepared in accordance with the GRI Standards: Core option. We will be assessing the overall reporting process and refining the same to enhance the quality of disclosure in terms of readability and usefulness to our stakeholders. We will also be looking at the external validation aspect during the course of the year.
Question:

On Enforcement actions, we note that Bursa has taken actions against 15 listed companies and 22 directors (of 5 listed companies and 1 other person) for various breaches of the Listing Requirements. A total of 138 management actions was also taken mainly relating to dealings by directors and principal officers, disclosures on sustainability on Annual Report et (page 16, GFR).

Has any firm action been taken to restrict or bar “errant” directors from sitting on Boards of listed companies, especially the repeat offenders?

Continued...
Answer:

In instances where we have concern as the fitness of an individual being a director of the listed company including arising from enforcement action, we will engage the listed company and its board of directors on the retention of the director vis-a-vis compliance of paragraph 2.20A of the LR.

In the event Bursa detects possible breaches/offences under the law, referral will be made to the relevant authority(ies) (e.g. Companies Commission of Malaysia, Securities Commission, Royal Police of Malaysia) for their action.

Bursa does not have any power under the LR to restrict or bar errant directors from sitting on the board(s) of listed company(ies). Whilst we can apply to the courts of law for such an order under Section 360 of the Capital Market & Services Act, 2007, we have not done so to date as such court application must be exercised only in serious instances supported by very strong and cogent grounds and evidence.
AGENDA 1

To receive the Audited Financial Statements for the financial year ended 31 December 2018 and the Reports of the Directors and Auditors thereon.
AGENDA 2 (Resolution 1)

Withdrawn.
AGENDA 3 (Resolutions 2 and 3)

To re-elect the following Directors who retire in accordance with Article 18.11 of the Company’s Constitution and who being eligible offer themselves for re-election:
(1) Ms. Chong Chye Neo;
(2) Datuk Muhamad Umar Swift.
Re-election of

Ms. Chong Chye Neo
Re-election of

Datuk Muhamad Umar Swift
AGENDA 4 (Resolution 4)

To approve the payment of Directors’ fees amounting to RM300,000 per annum for the Non-Executive Chairman and RM200,000 per annum for each of the Non-Executive Directors in respect of the financial year ended 31 December 2018.
AGENDA 5 (Resolution 5)

To approve the payment of benefits payable to the Non-Executive Chairperson and Non-Executive Directors up to an amount of RM2,200,000 from 29 March 2019 until the next AGM of the Company.
AGENDA 6 (Resolution 6)

To appoint Messrs. Ernst & Young as Auditors of the Company for the financial year ending 31 December 2019 and to authorise the Board of Directors to determine their remuneration.
