

MEDIA RELEASE

BURSA MALAYSIA REPORTS RM337.1 MILLION PROFIT BEFORE TAX AND ZAKAT FOR FINANCIAL YEAR ENDED 31 DECEMBER 2025, DELIVERS RM226.6 MILLION IN TOTAL DIVIDENDS TO SHAREHOLDERS

Key Financial & Market Highlights (FY2025 versus FY2024)
PBT and Zakat recorded at RM337.1 million, easing by 17.9% compared to FY2024, mainly due to the lower operating revenue of RM701.8 million in FY2025 arising from softer securities market trading environment
The Board declared a final dividend of 14.0 sen per share amounting to RM113.3 million. This brings total dividends for shareholders in FY2025 to RM226.6 million, representing a 91% payout ratio
Bursa Malaysia led the ASEAN market with 60 listings
Average daily trading value for Bursa Suq Al-Sila' ("BSAS") at RM48.8 billion, increased by 18.0%
Average daily contracts traded for Derivatives Market at 95,472 contracts, increased by 3.7%, marking a new record high for two consecutive years
Non-Trading Revenue increased 5.0%, continuing to provide earnings stability and contributing approximately 36.6% of operating revenue

Kuala Lumpur, 29 January 2026 — Bursa Malaysia Berhad ("Bursa Malaysia" or the "Exchange") today announced a resilient performance for the financial year ended 31 December 2025 ("FY2025"). The results reflect steady execution amid external volatilities that shaped trading conditions.

For FY2025, the Exchange posted a Profit Before Tax ("PBT") and Zakat of RM337.1 million, a 17.9% decrease from RM410.4 million reported in the financial year ended 31 December 2024 ("FY2024"). This is mainly attributable to the lower operating revenue of RM701.8 million in FY2025, compared with RM757.7 million in FY2024, following a decline in securities trading volume.

Meanwhile, total operating expenses saw a reasonable increase of 4.5% to RM390.1 million in FY2025, against RM373.4 million in FY2024, predominantly driven by higher administrative expenditure and investment in digital solutions. These expenditures were in line with the cost discipline practiced by the Exchange.

In line with Bursa Malaysia's performance in FY2025, the Board of Directors declared a final dividend of 14.0 sen per share, amounting to approximately RM113.3 million which will be paid on 27 February 2026. Combined with the interim dividend of 14.0 sen per share paid on 27 August 2025, this brings the total dividend of 28.0 sen per share, equivalent to a total payout of RM226.6 million and a payout ratio of approximately 91%.

Tan Sri Abdul Farid Alias, Chairman of Bursa Malaysia, said, "Global market conditions remained challenging in 2025, with external uncertainties continuing to influence investor sentiment and weigh on equity market performance. Despite this challenging environment, Bursa Malaysia maintained disciplined execution and delivered a resilient performance, supported by steady growth in non-trading revenue and consistent market development initiatives."

He added, "As a listed entity and a key institution within the nation's financial ecosystem, we remain focused on sustaining long-term value creation for our shareholders and the broader economy. Bursa Malaysia has maintained a dividend payout ratio of above 90% and delivered total shareholder returns of 455.6% since listing in 2005, reflecting the strength of our fundamentals and our commitment to balancing prudent investment with consistent shareholder returns."

In FY2025, the Securities Market registered trading revenue of RM308.2 million compared to RM381.5 million in FY2024, due to a 19.8% decline in Average Daily Trading Value ("ADV") across On Market Trades and Direct Business Trades as investor sentiment remained muted amid heightened global market uncertainty.

As for the Derivatives Market, its trading revenue saw a marginal dip of 0.9% to RM112.8 million from RM113.8 million in FY2024, as a result of the lower collateral management fees earned in FY2025.

Within the Islamic Market segment, operating revenue recorded a notable increase of 31.2% to RM23.5 million in FY2025, higher from RM17.9 million in FY2024. This is mainly driven by higher Bursa Suq Al-Sila' ("BSAS") trading revenue of RM20.2 million in FY2025 from RM16.9 million in FY2024. Trading revenue from Bursa Gold Dinar grew more than threefold to RM3.3 million in FY2025 from RM1.0 million in FY2024.

Additionally, Data Business revenue increased to RM81.4 million in FY2025, up 3.9% from RM78.3 million in FY2024, contributed by sustained demand and higher subscription base. The Exchange continues to drive the adoption of strong ESG practices and high-quality disclosures through its CSI Solution.

Dato' Fad'l Mohamed, Chief Executive Officer of Bursa Malaysia, said, "In FY2025, Bursa Malaysia stayed focused on maintaining market confidence, and future-proofing the Exchange. Fundraising activity remained steady as the Exchange led amongst ASEAN markets to deliver 60 IPOs. We are also supported by a healthy pipeline of potential listings and continued interest from issuers. This reflects the underlying resilience of domestic corporates and the sustained confidence of issuers in the Malaysian capital market."

"Malaysia's capital market is expected to remain resilient in 2026, supported by stable domestic demand, sustained investment activity and continued clear policy from the Government and Bank Negara Malaysia. While global growth is projected to moderate due to broader macroeconomic shifts, the Exchange remains focused on strengthening market vibrancy and ensuring a robust ecosystem across all segments."

"Moving into 2026, guided by our Strategic Roadmap 2024–2026, Bursa Malaysia will continue advancing our ambitions to broaden our product landscape, enhance market accessibility and elevate digital capabilities. These initiatives aim to unlock new participation, deepen the market and ensure Bursa Malaysia remains a strong engine of national growth and investor confidence."
