

# BUILDING CAPABILITIES

Launched in April 2014, Bursa Marketplace is a first-of-its-kind virtual marketplace that brought a unique experience to all investors, especially to new investors. The platform provides access to market knowledge, market insights and trading ideas as they chart their 'Trip to Trade' while growing their financial literacy. With BursaMKTPLC, we are putting the 'market-in-the-pocket' of all Malaysians by providing online access to comprehensive, objective and accurate information about our marketplace.
